

2012 Affordable Housing Programs Training On Demand

Consultations with Member Financial Institutions and non-profit housing providers are available using the FHLBI's Training on Demand tool. Available on a request basis, staff will conduct a specific, individualized training targeted to provide you with critical elements and information about the Affordable Housing Programs offered at the FHLBI.

NOTE: Sessions with non-profit housing providers require the participation of the member financial institution with whom the housing provider is partnering.

Submit the Registration - fill out the form and submit via e-mail to housing@fhlbi.com or print and fax to 317.465.0376. A member of the Community Investment Staff will contact you within 48 hours to discuss the scope of the training on demand session and coordinate a date and time.
