Reminder of Relief for Borrowers and Eligibility Guidance for Properties in Federally Declared Disaster Areas

The Federal Home Loan Bank of Indianapolis (FHLBank Indianapolis) has implemented directives for loan origination and servicing procedures as they relate to properties affected by federally declared disasters to help borrowers to return to their homes and lives.

This announcement is prompted by the FEMA announcement of a federal disaster due to Hurricane Ian.

Relief options for borrowers:

The following is a reminder of the servicer requirements in Section 10.3 of the MPP Guide regarding loans in a federally declared disaster area:

Temporary mortgage payment relief

If the subject property is within the federally declared disaster area and the property has been impacted or the borrower's income is affected by the disaster, servicers may temporarily suspend or reduce their mortgage payments for up to 90 days while establishing a Quality Right Party Contact (QRPC) to determine an appropriate course of action.

Forbearance

An appropriate relief measure in response to disasters is forbearance. Under forbearance, the servicer can agree to reduce or suspend the borrower's monthly payments for a specified period. After that, the borrower must agree to resume his or her regular monthly payments and to pay additional money at scheduled intervals toward repayment of the amount reduced or suspended. Generally, after establishing QRPC, forbearance may be granted for a term of up to six months from the date of the first reduced or suspended payment. Written approval from FHLBank Indianapolis is required for longer periods or other resolution options.

Servicer required actions:

Once the servicer becomes aware that a property has incurred damage as the result of a disaster, the servicer must:

- assess the extent of the damage and its effect on the borrower's ability to maintain their mortgage loan payment;
- confirm the property is adequately insured against damage;
- counsel the borrower on the availability of relief provisions and/or loss mitigation alternatives, including but not limited to referral to www.fema.gov and/or state government assistance;
- waive any late payment fees associated with the disaster or pending insurance settlement; and
- ensure that hazard (and flood or earthquake, as applicable) insurance claims are filed and settled promptly and that the properties are repaired fully.
- Notify FHLBank Indianapolis with the details of the impact and actions being taken by sending an email with the pertinent information to defaultreporting@fhlbi.com.

If a servicer has any doubt about the effect of the disaster on the property's condition or the borrower's employment or income status, it should discontinue any legal action in process until it can determine the true status. Then, the servicer should make its final decision on the appropriate course of action based on the findings.

Note: FHLBank Indianapolis expects that servicers will be able to determine the true status within 90 days following the date of the disaster declaration.

In reaching its final decision about a specific delinquency, the servicer should not:

- take any action (including the initiation or completion of foreclosure proceedings) if it may jeopardize the full recovery of a hazard, flood, or earthquake insurance settlement; or
- initiate (or complete) foreclosure proceedings related to a property that has been destroyed until it evaluates the economic feasibility of pursuing the foreclosure.

If the insurance loss settlement exceeds the outstanding indebtedness of the mortgage loan, it may be more practical to use the claim proceeds to satisfy the debt and let the borrower retain title to the property.

Loan eligibility in affected areas:

The following is a reminder of the eligibility requirement in Section 12.2.4.1.8 of the MPP Guide regarding loans located in a federally declared disaster area:

FHLBank Indianapolis will purchase mortgage loans secured by properties located in a federal disaster area, provided the Seller submits the following documentation to FHLBank Indianapolis:

- An Appraisal Update (1004D) must be completed prior to loan closing with an interior/exterior inspection including photos to verify no damage has occurred as a result of the disaster. This applies to all loans with appraisals dated prior to FEMA's Major Disaster event date.
- A full appraisal report (1004/1073) must have a comment addressing the post-disaster condition of the property for all appraisals dated on or after FEMA's Major Disaster event date. Any property that is identified as being damaged must be repaired prior to loan closing.
- The Seller should contact the appropriate regional FEMA office(s) to determine where properties located in their origination regions are included in the disaster areas.

FHLBank Indianapolis will not purchase the mortgage loan until any damages arising out of the disaster are repaired.

This situation is fluid; MPP staff will continue to monitor and update you as these directives evolve. As always, please contact staff with any questions related to this bulletin.

FHLBank Indianapolis periodically issues Informational Bulletins to provide program updates and information to approved Mortgage Purchase Program (MPP) sellers, including: MPP Guide revisions and changes; operational guidance or clarifications; and notices/reminders of industry issues that may affect sellers.

The Informational Bulletins are coded so that users can easily identify the issue and year of bulletin publication. For example, "Bulletin 02-22" indicates the second Informational Bulletin issued in 2022.

Please retain these bulletins in the back of your MPP Guide for easy reference. Bulletins can also be found posted on the MPP Materials page online at www.fhlbi.com.
